

Standard Code	Standards
<b>HS-SS.GEO.10.00.0</b>	<b>Analyze the characteristics, distribution, and complexity of earth's cultural mosaics.</b>
HS-SS.GEO.10.A.0	Describe and explain the characteristics that constitute any particular cultural system.
HS-SS.GEO.10.B.0	Identify and analyze the spatial patterns of cultural landscapes.
HS-SS.GEO.10.C.0	Explain examples of cultural convergence and divergence.
HS-SS.GEO.10.D.0	Demonstrate how globalization has accelerated cultural change.
<b>HS-SS.GEO.11.00.0</b>	<b>Explore the patterns and networks of economic interdependence on earth's surface.</b>
HS-SS.GEO.11.A.0	Describe and analyze the functions of economic activities in the primary, secondary, tertiary, and quaternary sectors.
HS-SS.GEO.11.B.0	Demonstrate how globalization impacts economic interdependence.
<b>HS-SS.GEO.12.00.0</b>	<b>Recognize the processes, patterns, and functions of human settlement.</b>
HS-SS.GEO.12.A.0	Compare factors that contribute to the growth or decline of settlements over time.
HS-SS.GEO.12.B.0	Analyze and explain the structure and development of megacities and megalopoli.
HS-SS.GEO.12.C.0	Identify urban models that are used to analyze the growth and form of urban regions.
<b>HS-SS.GEO.01.00.0</b>	<b>Demonstrate how to use maps and other geographic representations, geospatial technologies, and spatial thinking to understand and communicate information.</b>
HS-SS.GEO.01.A.0	Explain the advantages of using multiple geographic representations to answer geographic questions.
HS-SS.GEO.01.B.0	Identify the technical properties and quality of geospatial data.
HS-SS.GEO.01.C.0	Investigate the uses of geographic representations and geospatial technologies.
<b>HS-SS.GEO.02.00.0</b>	<b>Utilize mental maps to organize information about people, places, and environments in a spatial context.</b>
HS-SS.GEO.02.A.0	Identify from memory and describe locations, patterns, and characteristics of physical features across major world regions.
HS-SS.GEO.02.B.0	Identify from memory and describe locations, patterns, and characteristics of human features across major world regions.
<b>HS-SS.GEO.03.00.0</b>	<b>Analyze the spatial organization of people, places, and environments on Earth's surface.</b>
HS-SS.GEO.03.A.0	Explain the spatial organization of people, places, and environments using spatial concepts.
HS-SS.GEO.03.B.0	Describe and compare the processes that influence the distribution of human and physical phenomena.
<b>HS-SS.GEO.04.00.0</b>	<b>Evaluate the physical and human characteristics of places.</b>
HS-SS.GEO.04.A.0	Explain how personal, community, or national identities are based on places.
HS-SS.GEO.04.B.0	Illustrate the ways that physical processes change places.
HS-SS.GEO.04.C.0	Explain how human processes change places.
<b>HS-SS.GEO.05.00.0</b>	<b>Distinguish characteristics and meanings of varied regions.</b>
HS-SS.GEO.05.A.0	Identify and explain the criteria used to define formal, functional, and perceptual regions.
HS-SS.GEO.05.B.0	Describe and explain the changes in the boundaries and characteristics of regions.
<b>HS-SS.GEO.06.00.0</b>	<b>Analyze how culture and experience influence people's perceptions of places and regions.</b>

Standard Code	Standards
HS-SS.GEO.06.A.0	Describe examples of how perceptions of places and regions are based on direct experiences.
HS-SS.GEO.06.B.0	Explain how perceptions of places and regions change.
<b>HS-SS.GEO.07.00.0</b>	<b>Identify the physical processes that shape the patterns of the earth's surface.</b>
HS-SS.GEO.07.A.0	Compare the effects of physical processes across regions of the world.
HS-SS.GEO.07.B.0	Explain how earth-sun relationships drive earth's physical processes and create annual patterns.
HS-SS.GEO.07.C.0	Analyze the patterns that occur on earth's surface as a result of physical processes.
<b>HS-SS.GEO.08.00.0</b>	<b>Identify the characteristics and spatial distribution of ecosystems and biomes on earth's surface.</b>
HS-SS.GEO.08.A.0	Explain how there are short-term and long-term changes in ecosystems.
HS-SS.GEO.08.B.0	Explain how local and global changes influence ecosystems.
HS-SS.GEO.08.C.0	Describe the geographic distribution of ecosystems.
HS-SS.GEO.08.D.0	Define how climate can influence and change the characteristics and geographic distribution of biomes.
<b>HS-SS.GEO.09.00.0</b>	<b>Analyze the characteristics, distribution, and migration of human populations on Earth's surface.</b>
HS-SS.GEO.09.A.0	Describe and explain demographic concepts.
HS-SS.GEO.09.B.0	Compare the structures of population in different places using key demographic concepts.
HS-SS.GEO.09.C.0	Explain how population distribution and density change over time.
HS-SS.GEO.09.D.0	Identify and describe the types of migrations.
